

During our last lockdown, we surveyed our parents to gather their thoughts on our remote learning offer. We are very pleased that 130 parents responded with their thoughts.

Please see the graph below, which shows how our parents feel about our remote learning offer:

Where parents have provided us feedback on our offer we are pleased that we have been able to adapt it accordingly. A summary of feedback received is below:

| | |
|--|--------|
| Pitch of learning (too easy / too hard) | 19/130 |
| Range of subjects offered | 8/130 |
| Physical Activity | 8/130 |
| Delivery of Learning | 20/130 |
| Quantity of work (too much / too little) | 7/130 |

We have adapted our learning offer in the following ways in light of parental feedback:

- More Physical Activity needed: We have added a weekly PE lesson and Move and Groove session and daily activity suggestions for all children which can be completed as a family.
- Suggestions for improving children's well-being: We provide daily well-being videos for the whole family to partake in.
- Pitch / quantity of learning and range of subjects offered: We have updated the extra learning that we provide via the Home Learning tab on our school website Home page.
- Delivery of learning: Several families suggested that we offer smaller live sessions to support their children's learning. As a result, our Teaching Assistants will now stay behind after each live input session for 10/15 minutes to provide support for individuals or groups of children who require this.

If you have any further comments about our remote curriculum offer, please contact jackie.chambers@reptonmanor.kent.sch.uk.
