End of Year Framework
Subject: Computing
To be viewed alongside the E-Safety Framework

## National Curriculum Aims

The national curriculum for computing aims to ensure that all pupils:

- can understand and apply the fundamental principles and concepts of computer science, including abstraction, logic, algorithms and data representation
- can analyse problems in computational terms, and have repeated practical experience of writing computer programs in order to solve such problems
- can evaluate and apply information technology, including new or unfamiliar technologies, analytically to solve problems
- are responsible, competent, confident and creative users of information and communication technology

Computing Key Concepts

| Computing Key Concepts |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | YR | Y1 | Y2 | Y3 | Y4 | Y5 | Y6 |
| Computer Science |  |  |  |  |  |  |  |
| Algorithms and Programming |  |  |  |  |  |  |  |
| Data and information |  |  |  |  |  |  |  |
| Systems and networks |  |  |  |  |  |  |  |
| Information Technology |  |  |  |  |  |  |  |
| Digital artifacts |  |  |  |  |  |  |  |
| Computing contexts |  |  |  |  |  |  |  |
| Digital literacy |  |  |  |  |  |  |  |
| Creating Media |  |  |  |  |  |  |  |
| Mechanics |  |  |  |  |  |  |  |
| Searching and selecting information |  |  |  |  |  |  |  |
| E-Safety |  |  |  |  |  |  |  |

## Methodology:

| Year 3 | Systems \& Networks <br> I know the functions of digital devices <br> and networks. <br> I recognise how digital devices can <br> change the way we work. <br> I can explore how digital devices can be <br> connected and can explain the role of a <br> switch, server, and wireless access <br> point in a network. <br> I can recognise the physical <br> components of a network. <br> Algorithms \& Programming <br> I know how to break open-ended <br> problems into smaller parts. <br> I innow a wider range of commands <br> that can be used to write more <br> complex algorithms. <br> Creating Media <br> I can recognise how text and images <br> convey information. <br> - I know the benefits of desktop <br> programs. <br> I inow that animation is a sequence of <br> drawings or photographs. <br> Data and Information <br> I know how to use a range of strategies <br> - to collect, sort and review data. <br> I know what a branching database is. | Systems \& Networks <br> - I can identify input and output devices. <br> I can explain how a computer network can be used to share information. <br> Algorithms \& Programming <br> - I can use repeat commands when programming. <br> - I can use more complex algorithms when programming. <br> Creating Media <br> - I can combine text, graphics and sound in desktop publishing to suit different purposes. <br> - I can plan, create and review a stop-frame animation. <br> Data and Information <br> - I can collect and present information in a branching database. | Password Input Process Output Network Switch Server WAP | Sequence <br> Repetition <br> Instructions <br> If <br> Debugging <br> Test and improve <br> Event <br> output <br> Programming <br> Audio <br> Media <br> Background | Align <br> Bold <br> Italic <br> Underline <br> highlight <br> Landscape <br> Portrait <br> Images <br> Animation <br> Frame <br> Play <br> stop-motion | Branching database Find Record Group arrange Statistic |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Year 4 | Systems \& Networks <br> I can explain the function of networks <br> including the internet. <br> I know that websites can be shared via <br> the World Wide Web. <br> Algorithms \& Programming <br> - I know what a sensor is. <br> - I know a range of tools that I can use to <br> create a program. <br> - I recognise the positive impact of <br> algorithms. <br> Creating Media <br> I know that digital images can be <br> changed and can explain how they <br> might be changed for different uses. <br> - I recognise that not all images are real. <br> - I know that sound can be digitally <br> recorded and is stored as a file. <br> Data and Information <br> I Inow how to organise, analyse and <br> - I I kniew data collections. <br> - kow to use data loggers. | Systems \& Networks $\qquad$ <br> I can describe how networks physically connect to other $r$ I recognise how networked devices make up the internet. $\square$ <br> I can outline how websites can be shared via the World Wide Web. <br> I can describe how content can be added and accessed on the World Wide Web. <br> Algorithms \& Programming <br> - I can use a variety of tools to create a program using Scratch and simplify a programme when needed. <br> Creating Media <br> - I can use text, photo and sound editing tools to enhance my work. <br> - I can use a range of tools to change the composition of images and sounds. <br> Data and Information <br> - I can use data loggers to collect data. <br> - I can collect and organise data and use it to answer questions. | Internet Www Webpage Website | Action <br> Selection <br> Logo commands <br> Open-ended problems <br> Bugs <br> If <br> Repeat <br> Pen |  | Table <br> Charts <br> Data logging <br> Present data <br> Input |
| Year 5 | Systems \& Networks <br> - I know the function of computer $\square$ systems <br> - I understand how the internet works to enable us to work online. $\square$ <br> I know how sharing information onlin ets people in different places work together. <br> Algorithms \& Programming <br> - I know how to write complex algorithms with 'if' and 'then' commands. | Systems \& Networks <br> I can explain that computers can be connected together to form systems. <br> I can recognise the role of the computer systems in our lives. <br> I can recognise how information is transferred over the internet. <br> I can contribute to a shared project online. <br> e. ogether online. <br> Algorithms \& Programming <br> - I can decompose a problem into smaller parts to design an algorithm for a specific outcome and use this to write a program. <br> - I can refine a procedure using repeat commands to improve a program. <br> - I can use 'if' and 'then' commands to select an action. <br> Creating Media | Systems <br> Communicate <br> Search engines <br> Web crawlers | Procedure Variable Sequence Quiz Selection repeat Inputs Solutions commands | $\begin{array}{\|l\|} \hline \text { insert } \\ \text { Layer objects } \\ \text { Timelines } \end{array}$ | Find <br> Statistics <br> Faf file <br> Field <br> Text <br> Numeric <br> investigate <br> Report |

|  | - I understand the term 'decomposition'. Creating Media <br> - I recognise video as moving pictures, which can include audio. <br> - I recognise the features of an effective video. <br> - I can identify digital devices that can record video. <br> - I know that technology can be used for drawing and design. <br> - I can identify that drawing tools can be used to produce different outcomes. <br> Data and Information I know how to spot mistakes in data and suggest how to check the data. <br> - I know how to use a database to ask and answer real-world questions. | - I can capture video using a digital device and improve it through reshooting and editing. $\qquad$ <br> - I can create a vector drawing by combining shapes and using the appropriate tools to achieve a desired effect. <br> Data and Information <br> - I can use a flat-file database to answer real-world questions. |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Year 6 | Systems \& Networks <br> - I know how internet search engines work. $\qquad$ <br> can identify the benefits and <br> negatives of digital communication. <br> Algorithms \& Programming <br> - I understand the term 'deconstruct'. <br> - I can explain each of the steps in my algorithm. <br> - I can analyse and debug complex algorithms. <br> Creating Media <br> - I know a range of software and can select the appropriate software to match the purpose. <br> - I know that the audience atmosphere and structure need to be considered when planning a particular outcome. I know the features of an effective website and use this to review existing websites considering its structure. <br> - I can explain what animation is and can relate animated movement with a sequence of images. <br> Data and Information I know how to construct formulae and apply them to data. <br> - I know a range of ways that spreadsheets can be used including for real-world actions. | Systems \& Networks <br> I can identify how to use a search engine effectively. <br> I can describe how search engines select results. <br> I can explain how search results are ranked. <br> I can recognise why the order of the results is important, and to whom. <br> I can recognise how we communicate using technology. <br> I can evaluate different methods of online communication. <br> - I understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration. I am discerning in evaluating digital content. <br> Algorithms \& Programming <br> - I can deconstruct a problem into smaller steps, recognising similarities to solutions used before. <br> - I can use complex algorithms to write programs which can be transferred to physical outputs (Crumbles). <br> - I can use sequence, selection, and repetition in programs; work with variables and various forms of input and output. <br> - I can use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs. <br> Creating Media <br> - I can create a web page including inserting hyperlinks. <br> - I can use technology to insert and manipulate shapes to design a 3D model. <br> Data and Information <br> - I can use spreadsheets to collect, organise, sort and display data. <br> - I can use formula to complete calculations to answer questions on the data entered. <br> - I can select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information. | Protocols <br> Domain name <br> Packets <br> Public <br> Private <br> Collaboration <br> HTML | Predict <br> Plan <br> Test and review <br> Program <br> Selection <br> variable <br> Count controlled loops <br> Conditions | Hyperlinks CAD Modelling $2 D$ $3 D$ 3D Viewpoint Net Polygon 3D printing | Column <br> Cells <br> Rows <br> Formula <br> Sum <br> Range <br> Calculate <br> Analyse <br> Spreadsheet <br> Value |
