

**Forest School
Repton Manor Primary School 22/23**

SHout – Walk on the Wild Side will be working with Repton Manor Primary school in the outdoor Environment School area based in school.

The overall aim is for your child's year group to spend 6 days learning about and developing the area to be enjoyed by all the school students as well as completing activities that are linked to their curriculum.

John Muir Award

Year 5 and 6 will be looking to complete the Discover Award

Undertaking the award each student will need to complete four challenges -

- **Discover** a wild place – Students will be shown the area and have the freedom to discover all of the different areas within the forest.
- **Explore** it - Students will have the opportunity to explore the area and learn about the different types of trees and animals that live in this environment.
- **Conserve** it – First and foremost, the aim of the area is to create an amazing habitat area for mini beasts. This is located behind the pond and the groups will learn about the different types of mini beasts that live there, whilst creating fantastic habitats for them to live in.
- **Share** it – All of the student's families will be invited to come and see what has been achieved - date to be confirmed.
