Safeguarding and Pastoral

Does your child have an iPad or Amazon Fire Tablet?
Tablets are a familiar companion for many of our children. They act as a portable television, an aid for schoolwork and a blessing on long car journeys.

That said, there are still some aspects of tablets that parents and carers should bear in mind to help protect their child from online risks. These guides highlight possible hazards including the risk of age-inappropriate content, physical damage to the device and potential screen addiction.
