## **UPDATED COVID ADVICE APRIL 2022**

Dear Parents,

As you probably know, the Covid-19 advice from the Government has recently changed. The advice is extensive, but as a school we will be asking for the following, based on this new advice;

- **If your child has symptoms that could be Covid-19:**
  - Children and young people who are unwell and have a high temperature should stay at home and avoid contact with other people, where they can. They can go back to school, college or childcare, and resume normal activities when they no longer have a high temperature and they are well enough to attend.
  - Children and young people with mild symptoms such as; a runny nose, sore throat, slight cough or are otherwise well, can continue to attend their education setting.
- **If your child has tested positive for Covid-19, even if they do not have symptoms:**
  - If you have tested your child and they are positive, please keep your child at home for three full days, starting from the first full day after the positive test. They can come back to school on the fourth day if they feel well and do not have a temperature. If they are still unwell, or have a temperature, please keep them at home until they are recovered.
  - The advice to adults is to stay at home for five full days if they test positive and only return if symptoms have passed.

In order to keep people well and keep staff and children in school as much as possible, we will continue to be sensible and cautious in terms of assessing risk and adapting when needs be.

We hope this helps to clarify what would happen in the event your child(ren) show symptoms or test positive. The link to the government advice is below.
